This remedy has long been cherished by the community for its remarkable efficiely in reeving, healing and caring the most obstinate. painful and long-standing enses of cough, cold aftuenza, sore throat, branchilis, whooping ough, eroup, arthma, inflammation of the lungs, while even consumption itself has yielded to its magic influence when all other means have failed. Its whole history proves that the past has produced no remedy of equal value, as a oure for the numerous and dangerous pulmo nary affections which prevail all over the long.

Gentlemen:—I take great pleasure in adding mine to the mass of testimony in favor of that invaluable cough remedy—Dr. Wistar's Balsam of Wild Clarry. During the past winter my wife was affected with a severe cough and inflamation of the lungs. After suffering asyrely for many days, Wistar's Balsam was recommended, a trial of which gave immediate relief. I have known of the Balsam having been used in cases of Asihma, with the most of younderessits. I am sure that if the community were as well asymmetred with the merits of this great remedy as I am, you would be unable to supply the demand. I would always all who suffer from coughs, wide, a.c., to give this medicine in early and therough trial.

wants and expectations of all who may require his services.

The attention of the public is called to Folson's improved Deutal Plates, a great discovery in Deutistry, the great at advance step ever made in the art. The main difficulty in wearing artificial teeth, is, they do not hold in their place firmly enough; and add to this the annoyance of food getting under the plate while cating. The new patent consists in so constructing the plate on which the teeth are set, that they will not start, or drop, while eating or speaking; neither will nay particles of food get under the plate, no matter what the condition of the month is, which is not true of any food get under the plate, no matter what the con-dition of the mouth is, which is not true of any method hitherto used. Dentists that are using Dr. Folson's improved Dental Plates, have dispensed with all others.

I respectfully invite a call from those desir-ing Dental Work. Letter Patent have been secured for the United States, England and France; and I have purchased
